Attachment Photo Sheet for the Baby Lock Evolve (BLE8 & BLE8W)

Belt Loop Folder

(Folds the material downward on both sides with the edges meeting in the center of the underside of the belt loop; sewn with 2 needles)

Double Fold Bias Binder

(Folds the bias material in half around the fabric and then under-folds both the top and bottom edges of the bias material for a "CLEAN" Double Fold Finish on both top and bottom; sewn with 1 or 2 needles)

Single Fold Bias Binder

(Folds the bias material in half around the fabric. The edges are NOT folded under for a "RAW" Single Fold Finish on both top and bottom; sewn with 1 or 2 needles)

Collarette Coverstitch "A" & "B" Binders

("A" Style folds the bias material TWICE on top ("CLEAN" Finish) and UNFOLDED on bottom ("RAW" Finish). "B" Style folds the bias material TWICE on top ("CLEAN" Finish) and TWICE on bottom ("CLEAN" Finish). These "A" & "B" standard "Collarette" binders are used on all types of T-Shirts and Tops, especially Knitwear. Binders feature adjustable finish sizes via screw adjustment (+/- 1/8"); sewn with 2 or 3 needles)

Needles (11, 12BP, & 14BP)
& **Single Downturn Fellers**
available in our "Babylock"
eBay store category!!

Coverstitch Bias Binder Instructions for the Baby Lock Evolve (BLE8 & BLE8W)

Please note that our "A" & "B" Babylock Evolve Binders are adjustable. The CUT Size will work with binding material $1/16$ " (+/-) from the indicated CUT Sizes (as "stamped" or "etched" on the binder). Additionally, the FINISH Size is adjustable (via the 2 screws on the "top" of the binder) to sizes $1/16$ " (+/-) from the FINISH Sizes (as "stamped" or "etched" on the binder).

For example, our "A" Babylock Evolve Binders stamped "1-3/16 – 7/16" (1-3/16" indicating the mid-range CUT Size and 7/16" indicating the mid-range FINISH Size) will allow for a CUT Size of 1-1/8" to 1-1/4" (with 1-3/16" indicating the mid-range CUT Size) and are adjustable for FINISH Sizes of 3/8" to 1/2" (with 7/16" indicating the mid-range FINISH Size).

Coverstitch Bias Binder Mounting Photos & Instructions for the Baby Lock Evolve (BLE8 & BLE8W)

This is a new, high-quality Industrial-Grade Collarete Coverstitch Binder mounted on the BabyLock Evolve using our "L" Bracket. Note that the Binder is "angled" slightly toward the Presser Foot Area. The greater the angle, the closer to the Presser Foot the folded Binding Material will exit the Binder. Lastly, this Binder may be used with one or two of the white mounting screws, depending upon the angle used.
